

560E
WHEEL LOADER

EXTRA

■ **Net Horsepower**
319 kW (427 hp)

■ **Bucket Capacity**
5.35 m³ to 11.5 m³
(7 yd³ to 15 yd³)

■ **Operating Weight**
41 980 kg (92,549 lb)

Big machine comfort and power with fast cycle times and low cost of ownership

Front frame mounted ROPS Cab provides excellent visibility and operator comfort

Optional high lift arrangement

Massive, independently mounted, box section boom

Automatic boom kick-out and bucket leveler provides an fast duty cycle and high productivity

Forced oil cooled, maintenance free wet disc brakes provide a long, fade resistant life

Heavy duty axles to handle the largest loads

560E Extra

proven wheel load

Well located standard traveling and working halogen lights and auxiliary front mounted lights

319 kW (427 hp) Cummins QSX15 engine meets EU Stage IIIA and EPA Tier3 emission standards

Hydraulically driven, variable speed fan for high cooling efficiency, greatly lessens the blasting of debris against the radiator core

Joystick actuated hydraulic controls for easy, comfortable and precise control of the bucket

Hydrostatic steering system and tilt/telescopic steering column

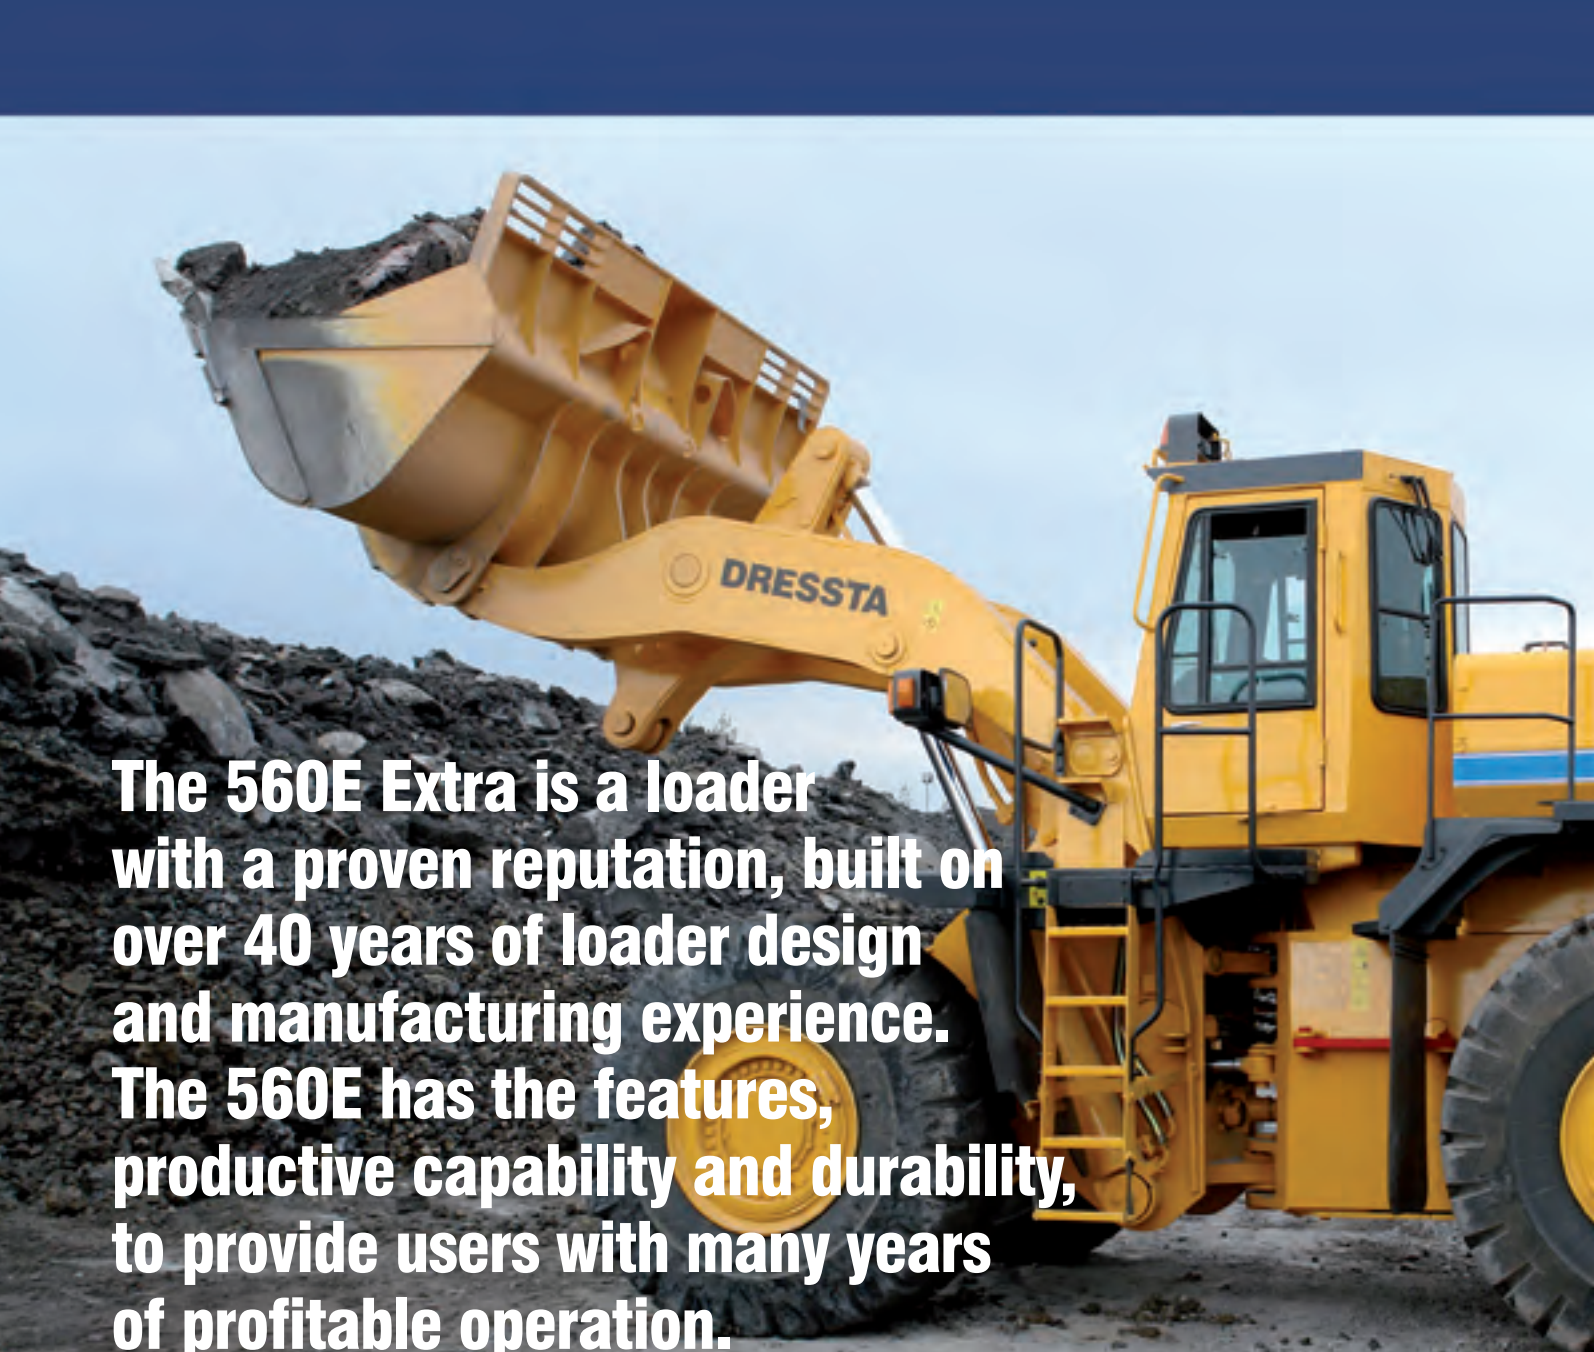

Simple, electrically controlled, countershaft, soft shift transmission with 3 speeds forward and reverse

Sight gauges and ground level servicing provide for quick daily maintenance and checks

Widely spaced center hinge pins with double-tapered roller bearings for long life

Heavy duty front and rear frames with castings at critical locations

er with state-of-the-art technology

The 560E Extra is a loader with a proven reputation, built on over 40 years of loader design and manufacturing experience. The 560E has the features, productive capability and durability, to provide users with many years of profitable operation.

HEAVY DUTY FRAMES

The frame weldments are made from high strength steel and incorporate castings at critical locations to absorb heavy weights shock loads and racking forces.

STRUCTURALLY PROVEN BOX BOOMS

Independent box section booms provide more strength with less weight on the front end of the machine. This improves machine stability, provides less tire loading and lowers tire heat generation in load and carry applications. High strength castings at each end of the boom arms distribute stresses and ensure thousands of hours of trouble free life.

PROVEN LOADER LINKAGE

Z-Bar linkage transfers maximum force to the bucket to pry out hard material. All loader linkage pins are sealed to keep out abrasive dust and grit.

CENTER HINGE PIN DESIGN

on breakout
and packed
are sealed
it.

Widely spaced upper and lower hinge pins pivot on double-tapered roller bearings. The hinge plates are designed to allow stresses to smoothly dissipate into the frame.

Dresssta buckets are noted for their superior digging and load retention abilities that promote a full load every time. The low mounted bucket hinge points, long bucket floor and sloped side sheets combined with a balanced drivetrain design, let the bucket fully penetrate the bank for full loads with minimum tire spin.

Special applications often require different buckets and tools.

Dresssta offers high lift arrangements, log grapples, fork-lift attachments and tool carrier arrangements to meet your needs.

Specification

ENGINE

* Make and model Cummins QSX15
Type In-line, 6-cylinder
Aspiration Turbocharged and CAC
Fuel system HPI Electronic
Gross Horsepower SAE J1995 336 kW (450 hp)
** Net Horsepower SAE J1349/ISO 9249 319 kW (427 hp)
Rated rpm 2000 rpm
Max. torque @ 1400 rpm 2102 Nm (1,550 lb-ft)
Displacement 15 l (912 in³)
Bore and stroke 137 x 169 mm (5.39" x 6.65")
Air cleaner dry type, dual stage with
dust discharge valve

* Meets EU Stage IIIA and EPA Tier 3 emission regulations

** Net Horsepower at the minimum speed of hydraulic fan 333 kW (445 hp)

TORQUE CONVERTER

Single stage, single phase type, 2.72 to 1 stall ratio.

TRANSMISSION

Electrically controlled, full soft shift transmission, driven by a double universal joint from the torque converter.

Single lever control for easy and precise control of gear and direction changes.

TRAVEL SPEEDS

| Gear | Forward & Reverse | |
|------|-------------------|--------|
| | km/h | (mph) |
| 1st | 7.1 | (4.4) |
| 2nd | 12.2 | (7.6) |
| 3rd | 32.5 | (20.2) |

AXLES

Heavy-duty type with full-floating axle shafts and planetary final drive.

Four wheel drive. Front axle fixed, rear axle oscillates a total of 23°.

Vertical wheel travel of 559 mm (22"). Conventional differentials.

STEERING

Articulated frame. Hydrostatic type providing smooth steering control at any engine speed.

Tilting and telescoping steering column for operator efficiency.

Articulation, right or left 35°

Turning radius outside of standard tires 8.03 m (26'4")

BRAKES

Service – Four wheel, hydraulic applied, sealed, force cooled, internal, multiple wet disc brakes with separate axle-by-axle operation.

Parking – Spring applied, hydraulically released, disc type, located on front axle.

TIRES

Standard: 29.5 x 29, 40 PR (L-4).

HYDRAULIC SYSTEM

Reservoir: Cylindrical type with 10 μ filtration for excellent full flow filtering, suction screen.

Pumps, gear type, driven from torque converter:

– triple element (loader equipment and steering, auxiliary and brake cooling pump)

– double element (hydraulic equipment and steering and pilot pump)

Equipment Hyd.: aggregate output @ 2000 rpm and 6.89 MPa (1,000 psi) - 530 l/min (140 gpm)

Steering Hyd.: aggregate output @ 2000 rpm and 6.89 MPa (1,000 psi) - 390 l/min (103 gpm)

Valve: Two spool with relief valve, single lever control

Relief valve pressure 21 MPa (3,000 psi).

Cylinders (double acting) – hardened chrome plated piston rods.

Boom – Bore and Stroke (2) 216 x 1219 mm (8.5" x 48")

Bucket – Bore and Stroke (1) 254 x 749 mm (10" x 29.5")

Steering – Bore and Stroke (2) 127 x 489 mm (5" x 19.25")

Raise boom 9.1 sec. Lower boom 5.6 sec.

Dump bucket in 2.8 sec.

REFILL CAPACITIES

| | Liter | (US gal) |
|----------------------------------|-------|----------|
| Fuel tank | 700 | (185) |
| Cooling system | 82 | (21.7) |
| Crankcase w/filter | 49 | (13) |
| Transmission system | 144 | (38) |
| Differential & final drive, each | 88 | (23) |
| Hydraulic reservoir | 206 | (54) |
| Hydraulic system | 382 | (101) |

INSTRUMENTATION

Gauges: engine coolant temperature, engine oil pressure, hourmeter, torque converter oil temperature, voltmeter

Warning lights: parking brake applied, partial brake system failure warning, engine coolant overheat, trans. & hyd. filter change indicator, torque converter overheat, low fuel level, service brake

Visual sight gauges: hydraulic reservoir, radiator coolant, air cleaner service indicator, transmission oil, fuel level

*Add 240 mm (9.5") to overall height if roof mounted lights are used

560E WHEEL LOADER

STANDARD EQUIPMENT

- Air cleaner, dry type, dual stage with dust discharge valve
- Alarm, back-up
- Alternator, 80 A
- Antifreeze, -37°C (-34°F)
- Axles, heavy duty, full floating, planetary type final drives, 4-wheel drive
- Batteries, cold start, 12V, 1900 CCA, maintenance free
- Boom kickout, automatic
- Boom, standard
- Brakes: service (SAE J1152, CODE EM 385-1-1), 4-wheel wet multi disc, full hydraulic apply, with axle-by-axle operation, R.H. pedal applies brakes only; parking, disc type on front differential, spring apply/hydraulic release with indicator light
- Bucket leveler, automatic (bucket application only)
- Cab ROPS (SAE J1040) with sound suppression, dome light, heater/pressurizer/defroster, inside mirror, front and rear wipers and washers
- Cooling module; includes radiator, transmission oil cooler, hydraulic oil cooler, fuel cooler, charge air cooler; isolation mounted
- Counterweight, 2900 kg (6,390 lbs)
- Differentials, conventional
- Fan, hydraulically driven, suction type, variable speed
- Filters: engine oil, transmission, torque converter and hydraulic oil, cartridge type element
- Grill, rear, vertically hinged
- Horn, electric
- Hydraulic controls, single lever
- Hydraulic system, closed with pressure control
- Instruments:
 - Gauges: engine coolant temperature, engine oil pressure, hourmeter, torque converter oil temperature, voltmeter, tachometer
 - Visual sight gauges: hydraulic reservoir, radiator coolant, air cleaner service indicator, transmission oil, fuel level
 - Warning lights: parking brake applied, partial brake system failure warning, engine coolant overheat, trans. & hyd. filter change indicator, torque converter overheat, low fuel level, service brake filter restriction
- Ladders: L.H. - cab access, R.H. - service ladder
- Lifting eyes and tie downs
- Lights, halogen, working and traveling, 4 front, 2 rear, 2 stop and tail, turn signals
- Lube system, ground level
- Mirrors, R.H. and L.H. rearview
- Muffler, underhood, insulated
- Panels, engine compartment side, quick access service
- Seat, adjustable, suspension type with arm rests, fabric cover
- Seat belt (SAE J386)
- Starting, 24V, electric with neutral safety start switch
- Steering, hydrostatic, articulated frame
- Steering wheel, tilt and telescoping
- Tires 29.5 x 29, 40 PR (L-4)
- Torque converter, single stage, single phase
- Tow-eye
- Transmission, 3-speeds forward and reverse with full soft shift, electrically controlled
- Valve, 2-spool
- Vandalism protection

OPTIONAL ATTACHMENTS

- Air conditioner/heater/pressurizer/defroster
- AM/FM CD radio
- Auxiliary steering, ground driven
- Beacon light, rotating
- Buckets (standard boom):
 - general purpose, 6.5 cu.m (8.5 cu.yd) straight edge or teeth
 - rock, 5.7 cu.m (7.5 cu.yd) straight edge or spade nose, with or w/o teeth
 - coal, 11.5 cu.m (15 cu.yd)
- Buckets (high lift boom):
 - rock, 5.35 cu.m. (7 cu.yd) spade nose with teeth or straight edge with teeth
- Bucket accessories:
 - tooth point kit, set of 8 (general purpose, abrasion or quarry jobs)
 - tooth removal kit
- CE accessories: fire extinguisher, first aid kit, grease gun, tools
- Centralized lubricating system
- Fenders, front and rear
- Guards, transmission, bottom and upper
- High lift boom, attachment with 5.38 m (212") hinge pin height
- Hydraulic kit: 3-spool valve, piping and controls incl. auxiliary lever
- Lighting, auxiliary, front mounted (4 cab roof mounted, 2 low level)
- Sound suppression package
- Starting aid, ether
- Starting/charging receptacle
- Tool carrier, quick coupler, includes male master (must order hydraulic kit)
 - spade nose rock bucket, 5.7 cu.m (7.5 cu.yd), with female adapter
 - fork-lift attachment, 12 500 kg (27,558 lb), with female adapter
- Tools in metal box
- Wheel protectors (special shipment less tires)

Specifications subject to change without notice. Illustrations and pictures may include optional equipment and may not include all standard equipment.
