

Tractor chipping machine WT 8 Z

A reliable partner!

The WT 8 Z is able to cope with all challenges of tough everyday use.

Chipping output: max. 60 m³/hour.

Feed opening (w x h): 76 x 45 cm
Tree diameter: max. 45 cm

Stable and reliable!

Ideally suited for medium-sized contractors, can be used for tractors with 120 to 200 HP. This low-priced, successful model for pros is available with a short or a long feed conveyor. A rotor with staggered knives and a large screen surface guarantees an excellent quality of the chopped material. Many machines of this type have been in operation for over 10,000 hours already.

Arguments that carry conviction

- **First-rate feed:**
76 cm wide, ideally suited for shrubbery, fitted with an upper roller and a lower roller.
- **First-rate feed conveyor:**
Swivelling, up to 3,000 operating hours.
- **Wear-resistant:**
All important wear plates can be replaced.
- **Electronic box:**
Decreasing switch-off speed and speed % adjustable.
- **Manoeuvrability:**
Ideally suited for chipping work in the forest.
