FB SERIES

S3 - STABILITY SUPPORT SYSTEM

Designed to assist the driver and reduce risks when operating the truck (standard on all FB Series)

- Speed control when turning
- Drive performance automatically adjusted dependent on lift height, load weight & forward tilt angle
- Drive speed controlled when on a slope
- Reduced lift and tilting speed according to the lift height and load amount

OPTIMISED VISIBILITY

- Thin rear pillar
- Flat bar overhead guard
- Low instruments panel increase fork-tip visibility
- Transparent panel increases fork-root visibility

PRE-OPERATION CHECKLIST

PIN CODE ENTRY SYSTEM

AUTOMATIC PARKING BRAKE (Stop on ramp)

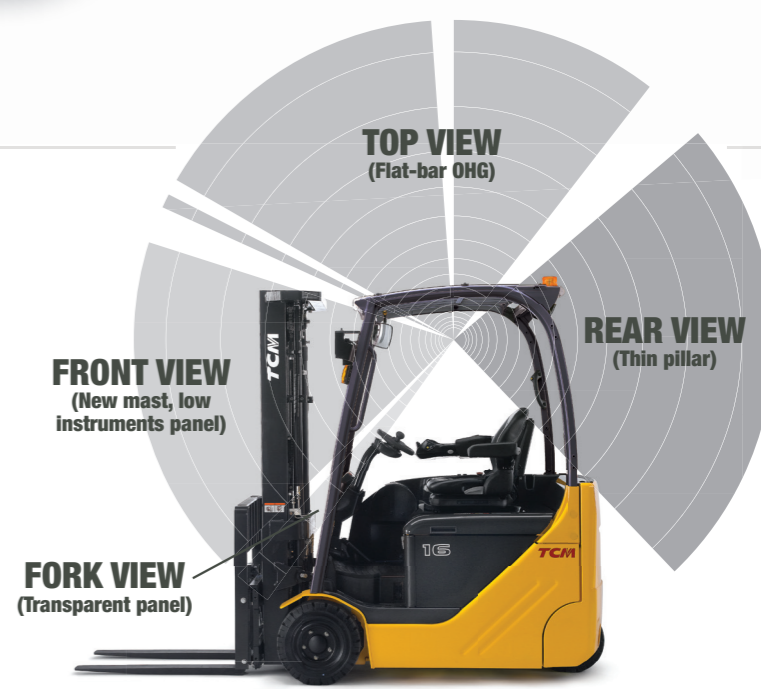

360° HEIGHT VISIBILITY

LESS WORKING ACCIDENTS

IMPROVED SAFETY

FB SERIES

SIDE BATTERY EXTRACTION

- We will work to find the right battery solution for your operation

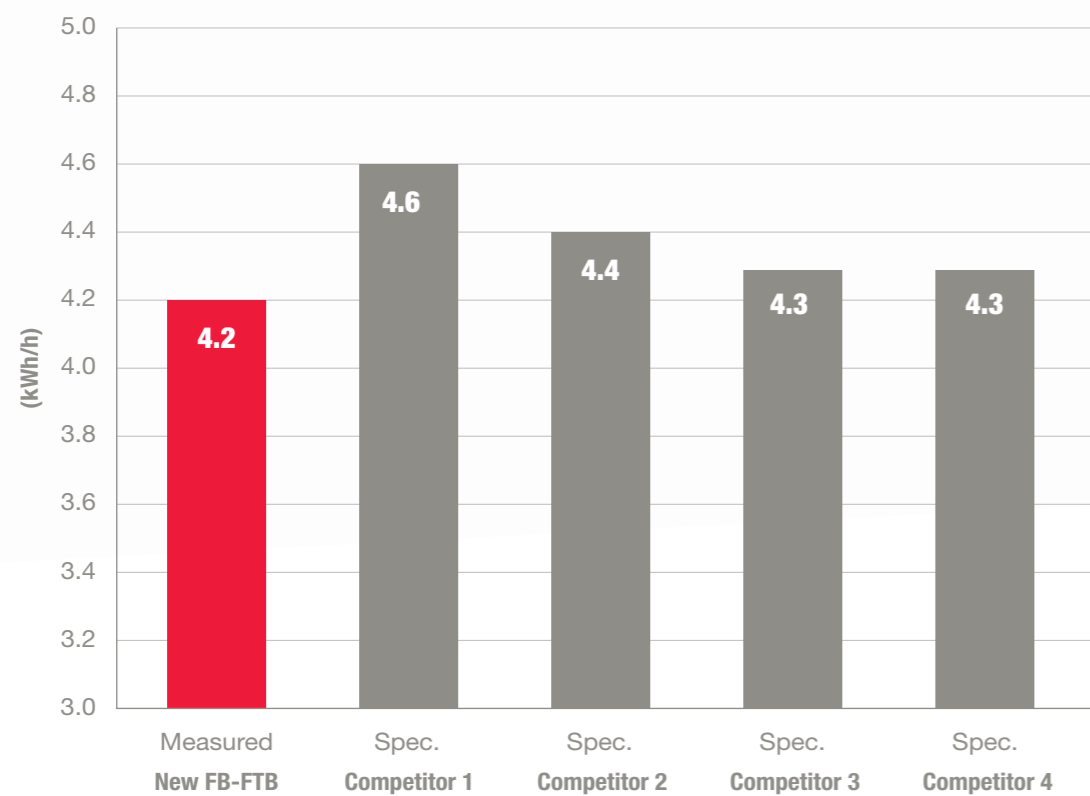

INDUSTRY LEADING LOW ENERGY CONSUMPTION

Low energy consumption

- Energy consumption measured to 4.2kW/h according to industry standard VDI test
- FTB most energy efficient model in the class

VDI Energy Consumption (60 Cycle/HR)

EASY SERVICE ACCESS

- Increasing your uptime
