

KRONOS

With over 100 years of experience.

GRIPTO 1010

THE  
BIGGEST

AND MOST EFFECTIVE LOADER  
FROM KRONOS

OUTREACH 10 M • LIFTING CAPACITY AT TEN METERS OF 630 KG • TURNING MOMENT 30 KNM

**MORE POWER, MORE OUTREACH,  
MORE SPEED, MORE COMFORT**

With this development, Kronos has reacted to the requirements of the forestry professionals, who need a stronger and faster crane with approx. 10 metre reach. The Gripto 1010 is the ideal choice for handling timber

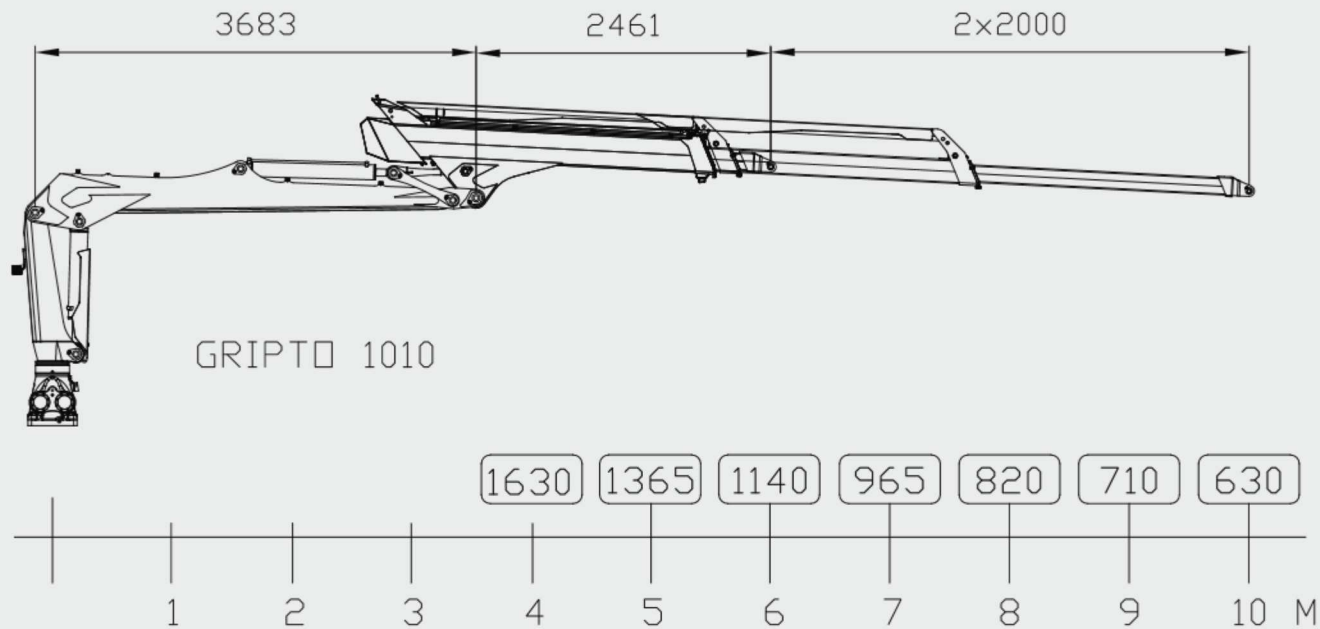

a 30 kNm turning moment. Hydraulic hoses and tubes are among the largest in loaders of this size combined with a very slim knuckle boom. The new control system xCrane enables very good individual adjustments for the operator.
