Atlas Copco's range of medium-duty hydraulic breakers was developed for a wide variety of applications. The combined gas/oil power principle means they are both powerful and highly flexible with regard to oil flow rate and pressure. Their technically advanced percussion mechanism, e.g. with long piston stroke, reduce unavoidable vibrations far more efficiently than many other makes.

### Merkmale und Vorteile

- VibroSilenced Plus system
- ContiLube II
- AutoStart
- AutoControl
- Energy recovery
- Percussion chamber ventilation

### Applications

- Demolition
- Foundation work
- Tunneling
- Trenching
- Underwater work
- Boulder size reduction in quarries

### Technische Daten

Einheiten: [Metrisch](#) [Imperial](#)

Technische Daten	
Gewichtsklasse	12 - 21 t
Betriebsgewicht **	1000 kg
Ölstrom	85 - 130 l/min
Betriebsdruck	160 - 180 bar
Schlagfrequenz	350 - 750 blows/min
Working tool diameter	110 mm
Arbeitslänge des Werkzeugs	570 mm
Max. hydraulische Eingangsleistung	39 kW
garantierter Schalleistungspegel	119 dB(A)
