

FASTEN DRYWALL FASTER

Cordless drywall screwdriver SD 5000-A22

The upgrade you've been waiting for — Hilti's new drywall screwdriver SD 5000-A22 has been optimized with a brushless motor allowing for increased setting speeds while maintaining market leading torque.

APPLICATIONS AND ADVANTAGES

- Brushless motor — virtually maintenance-free to minimize tool downtime
- Upgraded ergonomics — 0.7 lbs lighter than the first-generation, with a well-balanced design that sits firmly in the user's grip
- Bright LED provides direct illumination of the work surface
- Built for precise control — redesigned switch and electronic brake help you balance faster progress with consistent results

We've also reduced the weight by over 1/2 pound, added an LED light, and improved on the already preferred ergonomics — all to provide you the best user experience possible.

Combine the SD 5000-A22 with our innovative collated screw magazine SD-M2 for a premium lightweight system for hanging drywall fast.
